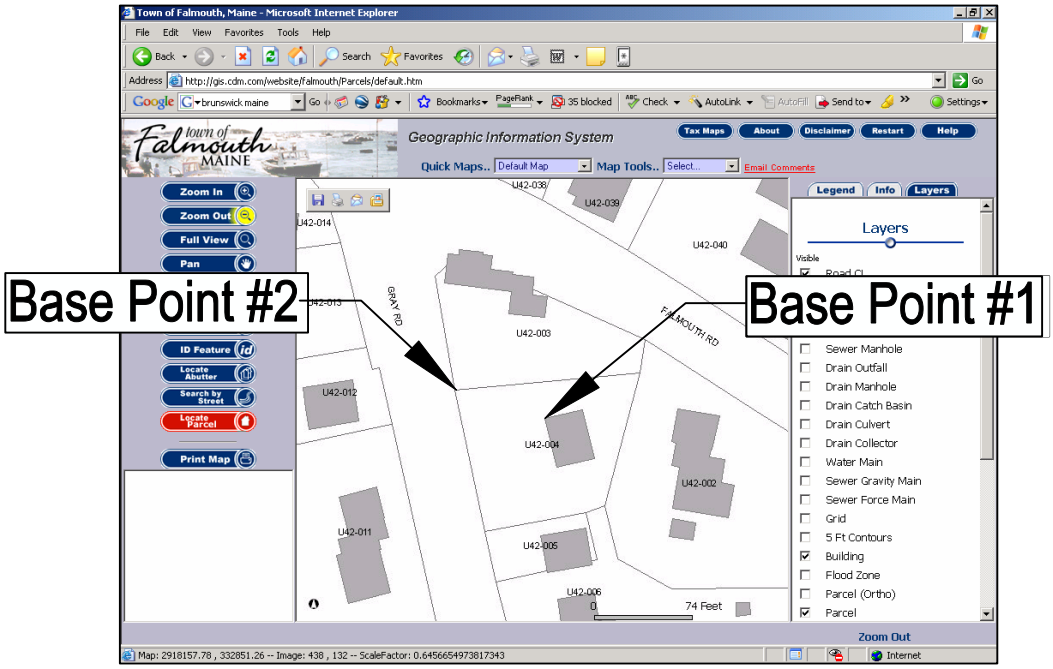
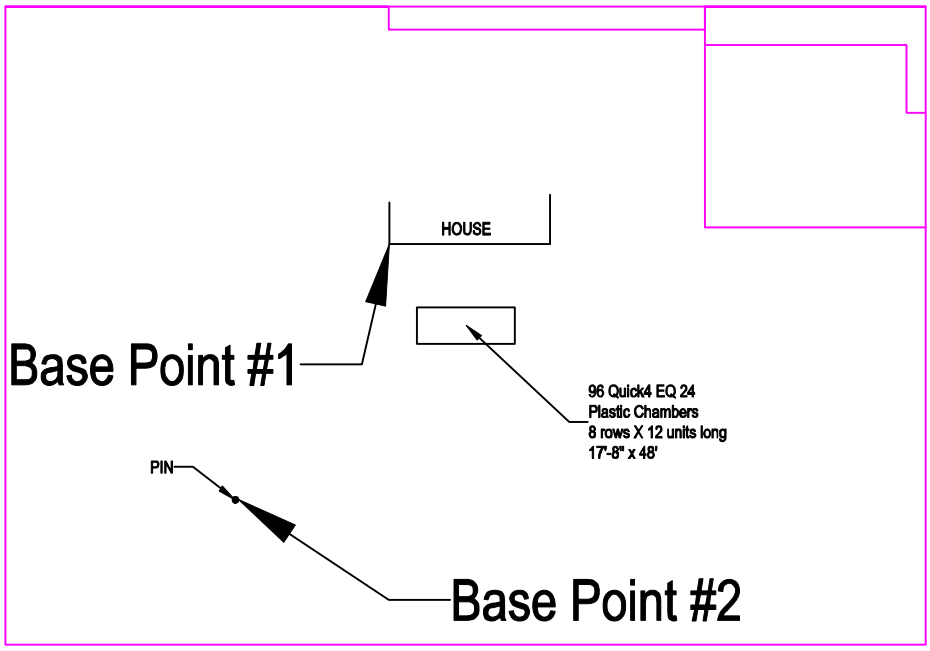
Object to Georeference (Falmouth Tax Map)



Field located objects



Using Georeferencing Tools

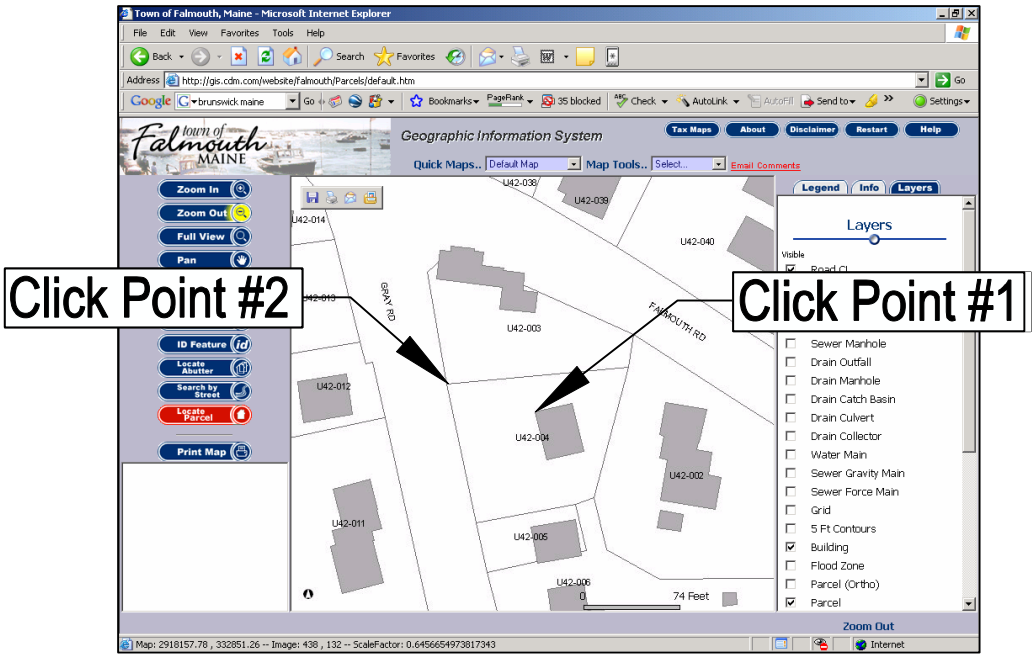
Georeferencing Tool Steps

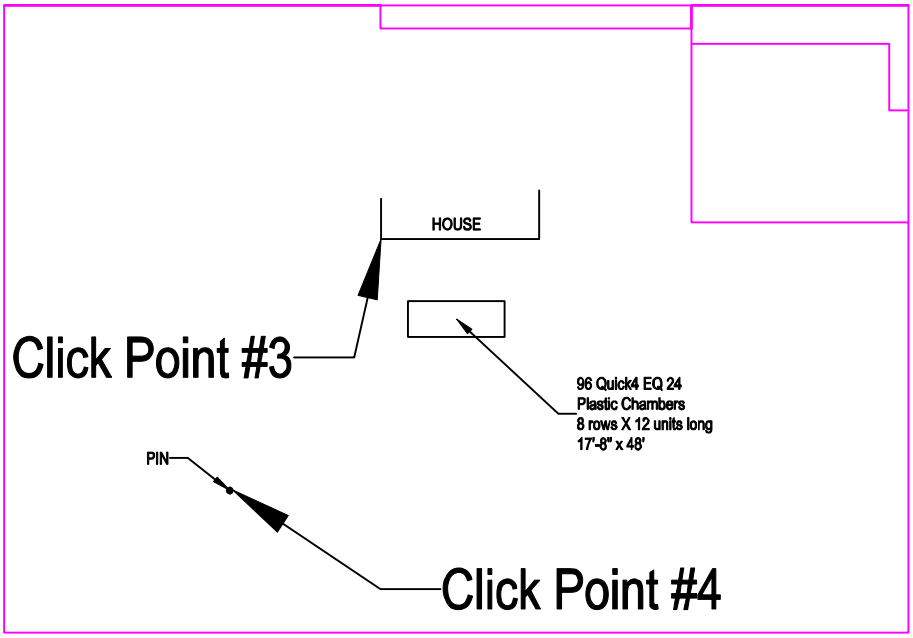
Step 1: Select the objects to be Georeferenced

Step 2: Use either GeoRef w/ Scale or GeoRef

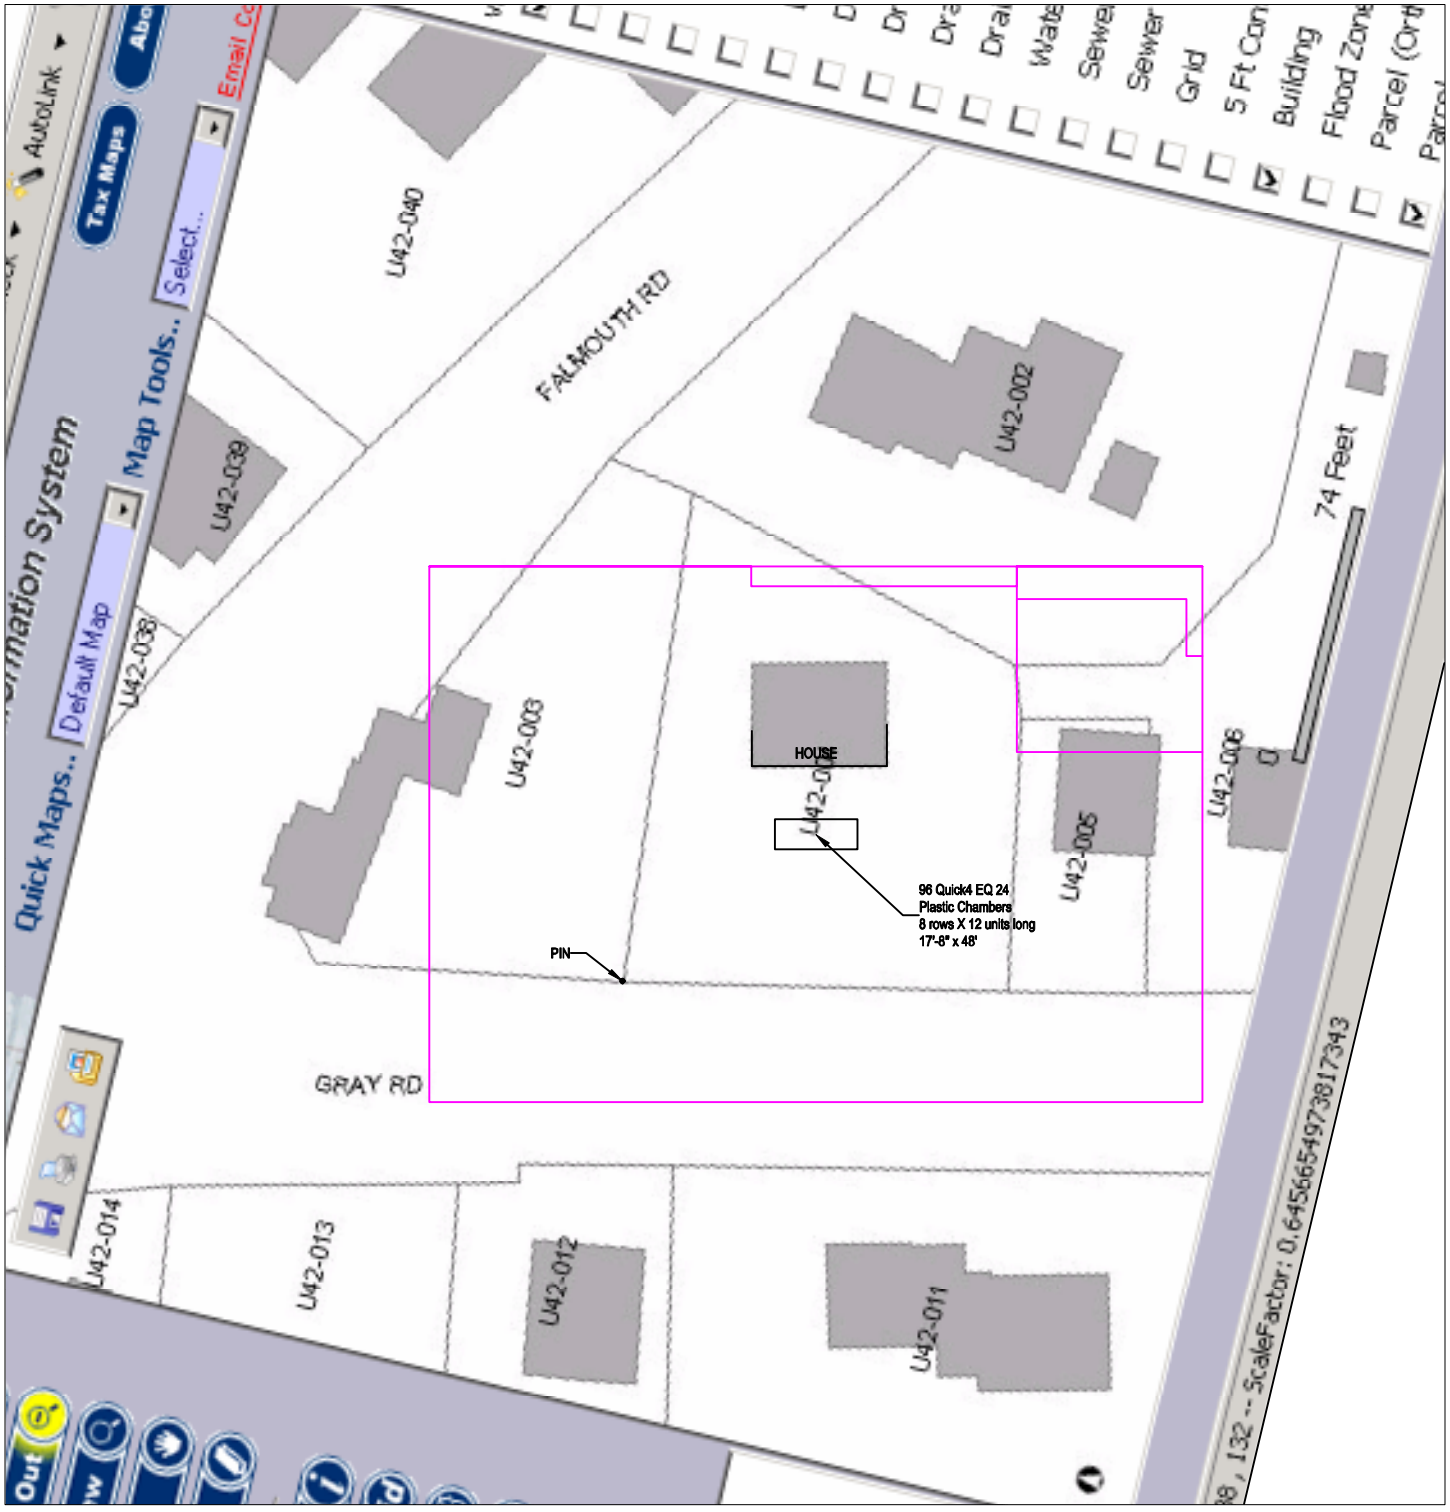
Use with aerial photographs/tax maps/scanned surveys or with CAD surveys.

Step 3: Click 4 Base Points





Result of Georeferencing Tool



Now the Property Lines and Buildings can be traced very quickly.
Then move or delete the image when your done with it.
